EURO SHUTTERS & CO.

The advanced technology of security, insulation, privacy, and noise control, all wrapped up in the EURO-SHUTTER leaving no quality behind.

The EURO-SHUTTER is not only the ideal investment for your security situation, it's the only security system that will pay itself off through energy savings.

Another feature as significant as the security system, is each individual slat of the EURO-SHUTTER is insulated with polyurethane foam providing excellent protection against heat and cold air loss. In addition to these features, EURO-SHUTTER provides noise/light control, privacy, protection from storms, damaging winds and hail.

Operated from inside the building the EURO-SHUTTER may be opened or closed with easy access to the controls. With the automatic locking device, the EURO-SHUTTER leaves no worries of forgetting to lock-up! When the EURO-SHUTTER is completely lowered, "IT'S LOCKED".
